

THERESA NEATE

DEVOPS / QA /
DEVELOPER ADVOCACY /
LEADERSHIP

PROFESSIONAL PROFILE

Theresa Neate is a senior developer advocate, lead quality analyst and test consultant - with several years of leadership experience - who loves lean and agility and advocates for holistic system quality and systems thinking.

ROLE PREFERENCE

- platforms & cloud platform & platform thinking
- ideally, including AWS (or GCP)
- systems & operations
- Head Of, Exec Mgr, VP ... (or their deputy)
- keep my tech skills sharp/sharper
- degree of operations/ networking/ Python/ AWS/ - flavours work
- more technology, not less
- support to complete Diploma of Networking (& who knows what next)
- balance of strategy / hands-on / management (will always bring Lead QA thinking to the table too)

COMPETENCIES

- Leadership
- Technical literacy and strong interest
- System thinking
- Strong communication skills
- Public Speaking
- Coaching & Mentoring
- Quality Analysis & Testing
- A range of technical skills, most at the level "serious playing" but not all at "full time specialist" level
(including a range of AWS services, Java, JavaScript, Python, Ruby, Buildkite, Docker, Linux, Selenium, SQL, etc.)
